

COMFEE

COMFEE

Comfee is a collection of armchairs with uniquely shaped and structured seating sections.

Innovative design with lightweight seats suspended on a metal frame provides superior comfort of use.

A wide range of colour and texture combinations of fabrics, and three types of stitching patterns to choose from in the upholstered version, result in an extensive range of options tailored to different customer preferences. These highlights, coupled with the option of ordering the seat in a version for outdoor use, make Comfee one of the most multifunctional and popular collections.
